

# Mount Fox Energy Park – Community Opportunities

Mount Fox Energy Park is committed to creating a lasting positive legacy in the local community. To support local communities, neighbours and ecology throughout the life of the project, MFEP has developed the following initiatives:

## Community Benefit Fund

Up to  
**\$124,000**  
annually

The Community Benefit Fund will support initiatives driven by the communities needs to provide a positive legacy across the region. Funding to be determined by a Community Reference Group to be established closer to construction. If you are interested or have an idea for an initiative the fund could sponsor, please contact Mount Fox Energy Park.

## Near Neighbour Benefit Scheme

Support for  
primary  
dwellings less  
than **4km**  
from a wind  
turbine.

The Near Neighbour Benefit Scheme has been developed to acknowledge nearby property owners who may be impacted by the development and provide support to these neighbours. We will be providing further information on the scheme closer to construction of the wind farm. If you are interested and believe you are eligible please contact Mount Fox Energy Park for further details.

## Community Energy Offset Initiative

**\$800** energy  
bill offset  
payment each  
year for Mt  
Fox primary  
residents

The Community Energy Offset Initiative is an innovative way MFEP is sharing the benefits of our renewable energy project with the wider community. An annual payment, to be used to offset electricity payments, based off 50% of the average household electricity bill in Queensland at \$800/year.

## Ecology Benefit Scheme

Up to  
**\$62,000**  
annually

The Mount Fox Energy Park is committed to ensuring a net positive result to affected ecologies within the project area. To facilitate this commitment the project Ecology Benefit Fund will support initiatives driven by ecology experts and not for profit organisations to provide a positive biodiversity legacy across the region.

Further details can be found on the Mount Fox Energy Park website
